

Igor Duarte Cardoso

Personal Data

Birth: Portugal, 1990
Location: Aveiro, Portugal
Alma mater: Universidade de Aveiro
Web: igordcard.com
Email: igordcard@gmail.com

Objectives

My short-term objectives are currently to keep working on the fields of Network Virtualization and Cloud Computing (IaaS) against projects like OpenStack, as a Software Engineer, preferably doing research.

I want to take part in the evolution of existing (and development of new) telecommunication technologies and core systems, learning and improving day after day.

Education

- 2014 Integrated Master's Degree in Computer and Telematics Engineering, **Universidade de Aveiro**, Aveiro, Portugal,
Dissertation: "Network Infrastructure Control for Virtual Campus",
Integrated Master's includes both Bachelor's and Master's degrees:
Final grade: 16 out of 20.
- 2008 High School,
Agrupamento de Escolas da Guia, Guia, Portugal:
Final grade: 18 out of 20.

Scholarships and Certificates

- 2014 Contribution to the extra-curricular mobile Android app ActUA
2011 Research Integration Scholarship (12-month) at IEETA, financed by FCT

Computer Skills

- Basic Experience: OpenStack, C, C++, ASP.NET, PHP, JavaScript,
Objective-C/iOS, Ruby, Python, bison, MIPS assembly, x86 assembly
- Intermediate Experience: Java, Android, C#, SQL, bash scripting, git, XHTML, Cisco IOS,
Excel, UML, GNU/Linux, Vim, Jenkins CI, GlassFish, GNS3, \LaTeX

Work Experience

<i>Current</i> October 2014	Researcher and Software Engineer Instituto de Telecomunicações Given the experience I acquired on OpenStack during my Master's Dissertation and the related work I did during it, I was invited to stay at Instituto de Telecomunicações, Aveiro, Portugal.
<i>Current</i> May 2013	Developer, Designer and Marketeer Wrkout Not really a job, but an amazing work experience. Wrkout is a mobile Android app which I've created. By dealing with multiple aspects related to developing, publishing and monetizing the app by myself, I have learned plenty. This project turned product also teaches me exactly why I should be working in a team.

Languages

English:	Almost Fluent
Portuguese:	Mothertongue
Spanish:	Basic Understanding

Interests and Activities

Network Virtualization
Software
Software-Defined Networking
Cloud Computing
OpenStack
GNU/Linux
Open-Source
Technology, Gadgets
Brainstorming

Presence

<i>ATNoG</i> September 2013	Advanced Telecommunications and Networks Group I became associated with ATNoG as part of my Master's Thesis. This group is established inside Aveiro's pole of Instituto de Telecomunicações.
<i>GLUA</i> July 2011	University of Aveiro's Linux Group Member of the University of Aveiro's Linux Group (Grupo Linux da Universidade de Aveiro). I am no longer active in this group.

Events

<i>As an attendee</i> November 2014	OpenStack Summit 2014, Paris
